PART #	PIECES	PRICE
SC125	1-24	\$13.25/ea
SC125	25+	\$12.75/ea

SOIL MOISTURE INDICATORS

The Irrometer saves water and fertilizer!

Soil is like a sponge. Once wet, irrigating it further will neither make it hold more water, nor retain water longer. With an Irrometer, optimum irrigation cycles can be established and scheduled. This saves not only water, but all other costs of irrigation as well.

Note: For air release, one service kit is needed per one or more Irrometers.

ITEM#	DESCRIPTION	PRICE
1006	6" Irrometer	\$82.00
1012	12" Irrometer	\$88.00
1018	18" Irrometer	\$90.00
1001	Service Kit	\$71.00

Watermark Sensors

Features

- Range from 10-200 centibars
- Fully solid state
- Will not dissolve in soils
- Linear accuracy even in moist soils (below 50 centibars)
- Not effected by freezing temperatures
- Internal compensation for commonly found salinity levels
- Digital readout
- Accuracy and stability
- Convenient to use
- Converts electrical resistance reading of sensor to centibars of suction

Benefits

- Save water
- Produce better quality and yields

Benefits

- Save energy
- Avoid excessive leaching of fertilizers
- Inexpensive
- Easy to use

ITEM#	DESCRIPTION	PRICE
30KTC	Meter	\$198.00
200SS5	Sensor	\$40.00
