

# OVAL HOSE BLUE STRIPE

TORO-BLUE STRIPE is a low pressure tubing that is used for drip irrigation headlines. Smaller sizes (Round Hose) are also used as a lateral distribution and supply hose for emitters, micro-sprinklers and extension tubing. It is a linear low density polyethylene tubing; resistant to stress cracking, chemicals, equipment abrasions and heat. It tolerates freezing temperatures and can be driven over. To connect drip line to Oval Hose, use 420BV-o6-LS and 400B-o6-LS (Page 12).
