Item # P1322

\$ 55.00

Adjustable stop

SOIL MOISTURE INDICATORS

The Irrrometer saves water and fertilizer!

Soil is like a sponge. Once wet, irrigating it further will neither make it hold more water, nor retain water longer. With an Irrrometer, optimum irrigation cycles can be established and scheduled. This saves not only water, but all other cost of irrigation as well.

Note; For air release, one service kit is needed per one or more Irrrometers.

ITEM#	DESCRIPTION	PRICE
1006.....	6" Irrrometer.....	\$ 62.00
1012.....	12" Irrrometer.....	\$ 64.00
1018.....	18" Irrrometer.....	\$ 66.00
1001.....	Service Kit.....	\$ 45.00

Watermark Sensors

METER

SENSOR

METER

SENSOR

Features

- * Range from 10-200 centibars
- * Linear accuracy even in moist soils (below 50 centibars)
- * Not effected by freezing temperatures
- * Internal compensation for commonly found salinity levels
- * Accuracy and stability
- * Converts electrical resistance reading of sensor to centibars of suction

Large Display For Easy Viewing
